Clear space and minimum size

Keep empty space around the logo equal to **X**, a quarter of the mark's height, on every side. Nothing (text, edges, other logos) goes inside it.

Smallest sizes: horizontal logo **120 px / 1.25 in wide**; mark alone **24 px / 0.25 in**. Below 32 px use the favicon files, which have a simplified mark.

X = ¼ of the mark height

Tagline and voice

Order food from local restaurants.

Headline: “Your neighborhood. Delivered.” Plain, warm, local. Say “no service fees” and “every tip goes to your courier”; never name the delivery partner.

Do

- Use the files as supplied (SVG for print and web, PNG elsewhere).
- Use the reversed logo on navy and on dark photos.
- Keep the arrow red (or white/black in one-colour versions).

Don’t

- Stretch, squash, rotate or add shadows or outlines.
- Change the colours, or recolour “Send” and “Koro”.
- Put the colour logo on red, busy photos or low-contrast backgrounds.
